

Community Solutions Plan (December 2007)

Community Solutions Vision: Improve people's lives by creating lasting change in community conditions

Kids Matter Value Statement: We value a community where all infants, children, and teens are nurtured physically and mentally and are provided with opportunities to succeed in school, develop functional life skills, are safe from harm, and reach their maximum potential.

Families Matter Value Statement: We value a community where all individuals and families have opportunities for education and life-long learning, remain self-sufficient, access needed community resources to meet healthcare and basic needs, have support for healthy lifestyles, and live in a safe environment.

Community Matters Value Statement: We value a community that is unified through community life, maximizes and shares resources and information, promotes volunteerism and civic involvement, embraces diversity, education, health and wellness, and is a safe place to live.
